

3s Class News

April 12-16, 2021

Last week we started talking about animals that come from eggs. We read the book Chickens Aren't the Only Ones. We learned that lots of other animals besides birds hatch from eggs. We painted with feathers and made a nest out of things we collected outside and clay.

This week we will continue to talk about birds. We will begin our last book of the year by painting 2 birds.

Snack

Monday- Snack mix, apple juice

Wednesday- Chinese noodle bird nest with raisin eggs, apple juice

Friday- Snack mix, apple juice

Let's work at home: Continue to look for birds when you are out and about. If you have the opportunity head to the zoo, be sure to look for the different birds we cannot see in our back yard or neighborhoods.
