Dear Families,

Happy Earth Day! Monday, April 22 is Earth Day. It is a day to think about the ways that we can work to keep our earth healthy. We have a beekeeping member of our WLPs family coming on Wednesday to talk to us about bees and how important they are to our earth! Mrs. Hart's 2 sons were in my daughters' classes at Wilma's!

Reduce, Reuse, Recycle... it's easy to do! That is the first line of one of our songs. We are learning ways that we can do all three of these things to help keep our planet healthy. We *reduce* waste by making sure we only use one or two paper towels after we wash our hands. We *reuse* our water bottles every day. We *recycle* by making taking items destined for the trash or recycling bins into imaginative art. Each student will design, build and decorate a sculpture out of recyclable materials.

I would like to let you know, that while earth day is a busy and important day, I may need Mrs. Gelwicks substitute teach all or part of the day to allow me to be with my son as he must have a minor procedure on that day. I will not know what time until this Thursday. Thank you for your understanding and I would appreciate healing thoughts for Brendan on that day.

Next Tuesday, April 23<sup>rd</sup> we will begin the always popular unit of study with our Fours Class, dinosaurs! This is always a fun way to conclude our school year.

Sincerely,  
Michale Dudley

Happy Birthday

# Fours Snack Menu

April 15, 2024

Monday	Snack Mix and Apple Juice
Tuesday	Biscuits with Honey and Apple Juice
Wednesday	Snack Mix and Apple Juice
Thursday	Birthday Muffins and Apple Juice Happy Birthday Jack!
Friday	Popcorn and Apple Juice
