April 22, 2024

Dear Families,

While Earth Day is Monday, April 22nd, we will be celebrating Tuesday, April 23rd! An art exhibit of our recycled cars and sculptures will be on the porch. We will plant a flower in our beautifully painted pots, and we will have a special snack.

This is of course because of Brendan's procedure Monday. We need to be at Wolfson's in the morning. Mrs. Gelwicks and Miss Erin will take great care of our class! Thank you for your understanding and caring thoughts.

Tuesday afternoon I will do my best to transform our room to make this a fun unit for our paleontologists! Can you believe we are starting the last unit study of the year?!

Sincerely,
Michale Dudley
